

Your Payroll is the trading name of KDC (Commercial) Limited, which was incorporated in April 2013 as the trading subsidiary of the charity, Knowsley Disability Concern (KDC).

Your Payroll was initially established to take over delivery of payroll processing services for individuals using direct payments to employ personal care assistants however its strategic plans now include the development and extension of the service offer to businesses and other employers.

Services provided currently comprise the following elements:

1. processing four-weekly payrolls on behalf of 800 individual employers using their personal health and social care budgets to arrange their care and support needs
2. processing payrolls on behalf of a small number individual employers who self-fund the employment costs of their personal care assistants
3. processing payrolls on behalf of a few individual employers via third parties (for example, case managers, legal specialists, court-appointed deputies)
4. processing monthly payrolls for several commercial employers, ranging from micro-enterprises, to medium sized companies and including third sector, not for profit organisations.

Your Payroll's unique selling proposition, which sets itself apart from other payroll service providers, is its relationship with KDC, the Charity. Your Payroll gifts all of its profits to further the Charity's aims, in particular the delivery of advice, support, advocacy, and learning and development opportunities which help strengthen the community of people with learning disabilities and enable disabled people and those with long term conditions to have choice, control and live more independently.
