

Statement of Diversity

Knowsley Disability Concern has a diversity statement that builds on the organisation's values and works towards fair and appropriate treatment for everyone it works with.

Knowsley Disability Concern takes pride in being a diverse organisation, enriched by the participation of all individuals and communities. It is recognised that prejudice and discrimination continues to result in unfair treatment for many people.

The statement is “***At Knowsley Disability Concern, we embrace the unique differences between individuals and aim to create an environment that values and respects the talent and contribution of people from different backgrounds and heritages.***

We ensure that our diversity principles are fully and equally reflected in the action of all individuals and groups across the organisation.

We are fully committed to delivering appropriate services that suit the needs of the individuals from marginalised and disaffected or socially excluded communities or groups.

We aim to ensure that all our publications and information resources including our website reflect the reality of diversity so that all our work either mainstream or targeted services is within reach of everyone, irrespective of age, class, gender, sexual orientation, disability, cultural identity or location” and everyone at Knowsley Disability Concern should ensure they value and see the benefits of being part of an inclusive organisation.
